Projects

Tala Snacks

https://saurabhnathofficial.github.io/Tala_Snacks/

Developed a fully responsive website for Tala Snacks, focusing on smooth animations and seamless user experience. The project involved the use of HTML, CSS, JavaScript, GSAP animations, and Locomotive Scroll for enhanced interactivity and performance optimization across devices.

- Responsive Design:** Ensured the website is fully functional and visually appealing on all devices, from mobile to desktop.
- Advanced Animations:** Implemented GSAP animations and Locomotive Scroll for smooth scrolling and engaging user interactions.

Dribbble Clone

https://saurabhnathofficial.github.io/dribbble_clone/

Created a responsive clone of the Dribbble platform, focusing on replicating the design, and user experience. The project was an exercise in front-end development, emphasizing design accuracy and interactive features.

- Responsive Layout:** Ensured the clone adapts seamlessly across various devices and screen sizes.
- Interactive Elements:** Integrated dynamic features to enhance user engagement and interaction.

FlexiDesign

<https://saurabhnathofficial.github.io/primiercssproject4/>

Developed a visually appealing and responsive website to showcase advanced CSS techniques and design principles. This project was focused on mastering layout design, animations, and styling, providing a polished user experience across all devices.

- Responsive Design:** Implemented a fluid layout that adjusts seamlessly to different screen sizes, ensuring consistent visual appeal.
- Cross-Browser Compatibility:** Ensured the design works smoothly across major web browsers.
