## COURSEWORK

Frontend Domination  
Sheryians Coding School | Nov 2023  
Search Engine Optimization (SEO) with  
Squarespace  
Coursera, August 2024  
Project Management Job Simulation  
Accenture, August 2024

## SKILLS

Programming: • C++ • SQL  
• Javascript  
Frameworks: React.js  
• Bootstrap • Tailwind CSS  
Familiar: OOPs • Data Structure  
• MySQL  
Tools: Git/GitHub • Figma

## SUMMARY

I am an enthusiastic and dedicated Computer Science student passionate about solving complex problems. My solid foundation in C++ includes fundamental concepts in algorithms and data structures. Additionally, I am proficient in HTML, CSS, JavaScript, with hands-on experience in crafting responsive and interactive user interfaces. I am eager to apply my skills in real-world scenarios and contribute innovative solutions in the dynamic field of technology.

## EXPERIENCE

### INTERN STUDIO | Web Development Intern and Trainee

Aug 2024 – Oct 2024

- Developed fully responsive websites with modern front-end technologies including HTML, CSS, JavaScript, and React.js
- Utilized GSAP and Locomotive Scroll for advanced animations and smooth scrolling, ensuring an engaging user experience across devices.
- Collaborated with a team of developers to optimize website performance and ensure cross-browser compatibility.

## PROJECTS

### TALA SNACKS WEBSITE | [LINK](#)

Technologies: HTML, CSS, JavaScript, GSAP, Locomotive Scroll

- Developed a fully responsive website for a snacks brand, integrating advanced animations and smooth scrolling effects.
- Optimized performance and user experience across devices, ensuring smooth transitions and animations.

### LIVE WEATHER APP | [LINK](#)

Technologies: React.js, Tailwind, OpenWeather API, Material ui

- Built a React application that fetches real-time weather data for cities using the OpenWeather API.
- Implemented clean and intuitive UI, ensuring a seamless user experience.

### ZELT - Dynamic Landing Page | [LINK](#)

Technologies: HTML, CSS, JavaScript, GSAP (GreenSock Animation Platform)

- Integrated advanced scrolling effects and animations to enhance user interaction and engagement.

### CYBERFICTION - Futuristic Landing Page | [LINK](#)

Technologies: HTML, CSS, JavaScript

- Designed a sleek, responsive landing page with a futuristic theme.
- managing state and implementing interactive features to enhance user experience.
